ou inadvertently sent me the enclosed in-
d of the Mexico City text, and I would be
interested to see that. What I have heard
ar is gratifying, and I am glad to know how
energies were directed.

here was a query on 'toxins' herein; perhaps
had not seen the amendment that the US
egation proposed with UK approval. Toxins
e also mentioned by Rogers, a/c to this text
the NY Times.

ou struck a right blow at ~~XXXXXXXX~~ Mitchell
your letter to the NYT 9/26.
